HEALTHCARE INFORMATION TECHNOLOGY SOLUTIONS

Technical Doctor offers healthcare Providers a unique blend of medical practice and IT experience to assist Hospitals and Physicians Practices maximize their EHR investment. Our company has over 60 years of combined MD and medical IT experience, including managing a Physician Practice, leading medical information technology teams and implementing and supporting a broad array of IT systems and technologies for the health care industry. Implementing an EHR system is time consuming, stressful and costly. Additionally, case studies have shown that realizing the benefits and efficiencies of an EHR system will take dedicated resources and a solid understanding of the necessary changes to your current daily processes as well as your computer systems. Together we can provide you with cost effective and experienced resources that will help you reach your goal of a successful EHR implementation.
